# About Us

## Vison

To be known globally as a reliable contractor and partner of choice and a technical leader providing solutions that add value to our client's business.

## Mission

To achieve success at the point of delivery for all projects we undertake where success is defined by our safety performance and where our delivery is underpinned by certainty and credibility.

## Value

Core values are at the heart of our business because they define who we are, how we work, what we believe in and what we stand for. Our core values set to provide a sound basis to make decisions.

Delta Global Ltd is a Libyan Shareholding Company founded in 2013 with the goal of providing integrated and reliable services in the energy and petrochemicals sector, through a comprehensive portfolio of subsidiaries and its network of strategic partners.

The Portfolio Growth has been achieving through Joint ventures and Strategic alliances focusing on various segments of Libya Energy Sector.

Delta Global strategy is to continue to grow and support its existing portfolio to expand its scope of services and markets, and to leverage the synergy among its current Partners , in order to provide integrated reliable services in the targeted energy and petrochemicals sectors.ion.

# MARKET FOCUS

## DESIGN & ENGINEERING

DELTA GLOBAL Ltd built its Engineering capabilities by composing highly experienced team of engineers with expertise in Tank Farms & Refineries, Power Plants, Industrial

## PROCUREMENT SERVICES

DELTA GLOBAL Ltd is a strong portfolio of company' supplies energy sector with specialized materials and chemicals for processing, storing and refining of oil and gas:

## MAINTENANCE SERVICES

Maintenance/Repair and Revamping works for Oil & Gas Field facilities

## MANPOWER SUPPLY

We can provide the client with Manpower Supply

## CONSTRUCTION SERVICES

## GENERAL TRAINING COURSES FOR OIL & GAS INDUSTRIES

From processing to pipeline, engineering to operations, DELTA has proven industry experience to help manage the talent required to execute on your midstream assets

# PROCUREMENT SERVICES

DELTA GLOBAL Ltd is a strong portfolio of company' supplies energy sector with specialized materials and chemicals for processing, storing and refining of oil and gas:

## ◆ Instrumentation

Flow meters, Float level switched, Level Transmitters, Globe Valves, Level Gauging, Diaphragm valves, Ball valves, Sight Glasses, Ball Check valves, Butterfly valves , Gas Analyzers, vortex coolers etc.

## ◆ Rotating Equipments

Process Pumps, Steam Turbine, Centrifugal Pumps, Metering Pumps, Chemical injection pumps, Reciprocating pumps, Chemical injection skids etc.

## ◆ Electrical

Terminal Boxes, Lighting, Flameproof enclosures, Gas detection, plugs & sockets, air circuit breakers, Earth leakage relays, Diesel Generators, All types of Motors, Transformers, PLC, Switch Gears, Generators etc

## ◆ Mechanical

Baskets for air preheaters , Finned Tubes, Oil Mist Generators, Thermojet Oil Purifiers, LNG tankers, Boilers, Heaters, Gaskets, PLCs, Flanges, Demisters etc.

## ◆ Process Equipments

Pressure Vessels, Column tower, Heat Exchanger, reactors

## ◆ Catalysts

FCC, desulphurization, Hydro treating

## ◆ Contractors

EPC/Others: Power Generating Plants, Industrial & Pipeline services, Heavy oil Processing, LNG terminals etc.

## ◆ Renewable Energy solutions

Solar thermal for district cooling & heating, Solar PV generating electricity, CSP Concentrated Solar for generating steam and electricity & Wind generating electricity.

DELTA is in position to provide & supply with different material such us:

- ◆ Piping & fitting in different material & grade.
- ◆ Gasket & sealing check.
- ◆ Valves (Ball, Gate, etc.).
- ◆ Insulations.

In according to international standard & specification requirement such as API, ESMI, ASTM & B.S

## ◆ Industrial chemical

Oilfield Chemicals, Plastic Industry Chemicals, Drilling Chemicals, Water Treatment Chemicals, Fiberglass Chemicals

## ◆ Fire detection and suppression systems

## DESIGN & ENGINEERING

DELTA GLOBAL Ltd built its Engineering capabilities by composing highly experienced team of engineers with expertise in Tank Farms & Refineries, Power Plants, Industrial.

We can prepare the following document such us:

- ◆ Pipe and Instrument diagram, Flow diagram.
- ◆ Piping layout.
- ◆ Electrical cables connection & distribution.
- ◆ Material List.
- ◆ Project schedule and cost.

## MAINTENANCE SERVICES

◆ Maintenance/Repair and Revamping works for Oil & Gas Field facilities such as Stationary and Rotating equipments, Separators, Desalination plant, Boilers, Skimmers, Dehydrators, Scrubbers, Gas Boots and Production Tanks, etc. and assorted equipments.

◆ Repair / Maintenance of underground cross country pipeline up to 42 inch in diameter.

◆ Maintenance of crude oil storage tanks and various product storage and utility tanks. Activities include repair and replacement of tank appurtenances, bottom plate and roof plate, supply of foam dam seal plate and weather shield for floating roof tanks, etc.

◆ Maintenance / repair of oil / gas pipelines up to 42" inside diameter.

◆ Cleaning inspection of pipelines up to 42" inside.

## MANPOWER SUPPLY

We can provide the client with Manpower Supply to cover the operation end users. Our Manpower is well selected around the world and supplied according to job description requirement with high standards complying with the Oil and Gas industries level.

## MAINTENANCE SERVICES

- ◆ Construction, Testing and commissioning for Oil & Gas Field facilities including pipelines, trunk lines, process piping and facilities.
- ◆ Oil and Gas Processing plant.
- ◆ Crude oil and products storage tanks up to 500,000 barrels in capacity.
- ◆ Construction and refurbishment of accommodation blocks suitable to desert conditions according to BS, ASTM, and ACI standards.

## GENERAL TRAINING COURSES FOR OIL & GAS INDUSTRIES

From processing to pipeline, engineering to operations, DELTA has proven industry experience to help manage the talent required to execute on your midstream assets. As a trusted advisor and emerging leader in the industry, we can help you tackle your operational challenges by improving your workforce. DELTA can provide the highest quality, business relevant programs that span all technical processes, and give management assurance that they have the skilled people they need to maximize asset value.
